

# CERTIFICATE OF ACCREDITATION

This is to attest that

#### **ALFANAR CALIBRATION LABORATORY**

1765, OTHMAN ALRADY ST. ALREMAL AREA RIYADH, 11632, KINGDOM OF SAUDI ARABIA

#### **Calibration Laboratory CL-198**

has met the requirements of AC204, *IAS Accreditation Criteria for Calibration Laboratories*, and has demonstrated compliance with ISO/IEC Standard 17025:2017, *General requirements for the competence of testing and calibration laboratories*. This organization is accredited to provide the services specified in the scope of accreditation.

Effective Date August 18, 2022

Expiration Date April 1, 2025

President

International Accreditation Service, Inc.

3060 Saturn Street, Suite 100, Brea, California 92821, U.S.A. | www.iasonline.org

#### **ALFANAR CALIBRATION LABORATORY**

<sup>&</sup>lt;sup>1</sup>The uncertainty covered by the Calibration and Measurement Capability (CMC) is expressed as the expanded uncertainty having a coverage probability of approximately 95 %. It is the smallest measurement uncertainty that a laboratory can achieve within its scope of accreditation when performing calibrations of a best existing device. The measurement uncertainty reported on a calibration certificate may be greater than that provided in the CMC due to the behavior of the calibration item and other factors that may contribute to the uncertainty of a specific calibration.

<sup>&</sup>lt;sup>2</sup>When uncertainty is stated in relative terms (such as percent, a multiplier expressed as a decimal fraction or in scientific notation), it is in relation to instrument reading or instrument output, as appropriate, unless otherwise indicated.

<sup>&</sup>lt;sup>3</sup>Capability is suitable for the calibration of measuring devices in the stated ranges.

<sup>&</sup>lt;sup>4</sup>Capability is suitable for the calibration of devices intended to generate the indicated quantity in the stated ranges.
