The product certification used most closely resembles a Type 5 product certification scheme type as described in ISO/IEC 17067 (2013), Conformity assessment — Fundamentals of product certification and guidelines for product certification schemes.

# SCOPE OF ACCREDITATION

International Accreditation Service, Inc.

3060 Saturn Street, Suite 100, Brea, California 92821, U.S.A. | [www.iasonline.org](http://www.iasonline.org)

**Type 5:** *The surveillance part of this scheme requires taking samples of the product from the point of production, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfill the specified requirements. The surveillance includes quarterly assessment of the production process, and audit of the management system. The extent to which the surveillance activities are conducted may be varied for a given situation, as defined in the scheme. If the surveillance includes audit of the management system, an initial audit of the management system will be needed.*

\*The U.S. Agent address is shown to indicate the address of the agent for service. A U.S. Agent for Service is required by United States Code of Federal Regulations 40 CFR Part 770 for non-domestic entities.
