Participant Feedback	IAS Response
May be course should have some more exercise / group activities to make the learning more interesting.	Noted. Online venue, however does not allow for group exercises on the standard. Most useful approach is to have participants search for answers within the standard as the means to promote knowledge uptake.

Other comments:

- Quite helpful to get desired information and requirement related to standard. Ned as trainer is perfect for the subject line. His understanding about the subject is perfect and importantly method of explanation of each clause with real life example help to connect and get clarity about the requirement.
