Effective Date August 9, 2023

Products Category and Sub-Categories	Certification Scheme and Scheme Owner / Standard
Formaldehyde Emissions from Wood products	Environmental Protection Agency (EPA) California Air Resources Board (CARB)
<ul style="list-style-type: none">Hardwood Plywood, Laminated Products, Medium Density Fiberboard, Particle Board	California Air resources Board (CARB) Regulation #93120-93120.12, Title 17 Scheme Type 5 United States Code of Federal Regulations 40 CFR Part 770 – Formaldehyde Standards for Composite Wood Products (EPA TSCA Title VI) Scheme Type 5

Notes:

The product certification used most closely resembles a Type 5 product certification scheme type as described in ISO/IEC 17067 (2013), Conformity assessment — Fundamentals of product certification and guidelines for product certification schemes. Type 5: The surveillance part of this scheme allows for the choice between periodically taking samples of the product either from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfill the specified requirements. The surveillance includes periodic assessment of the production process, or audit of the management system, or both. The extent to which the four surveillance activities are conducted may be varied for a given situation, as defined in the scheme. If the surveillance includes audit of the management system, an initial audit of the management system will be needed.

*The U.S. Agent address is shown to indicate the address of the agent for service. A U.S. Agent for Service is required by United States Code of Federal Regulations 40 CFR Part 770 for non-domestic entities.
